\* these frames are only available with the plant-on bar option

**NOTE:** Howarth's arched windows are not true semi circles as standard. If true semi circular windows are required, please highlight this on your order.

All arched windows come complete with a coupling cill (for on-site coupling to standard windows). Alternative cills are available at extra cost. Prices on application.

**NOTE:** All Endurance and factory glazed frames with glazing bars are priced using the plant-on method. The clip-on method is available at a reduced cost. All glazed frames now include low-E 24mm glazing. Frames 1500mm high or above, include low-E toughened glass.

Window sizes shown are nominal and will be approx 5mm less than the size shown to allow for building in.
