Whatever your pipe-boxing or casing need, Howarth Timber & Building Supplies and Pendock have got it covered. From boxing boiler flues to creating the perfect finish in a new bathroom, we've got all the answers.

Covering waste pipes.

Covering heating pipework.

Covering boiler pipes and flues.

PENDOCK – THE QUICK AND EASY WAY TO BOX IN PIPES

Pre-formed and pre-finished pipe boxing from Pendock helps save time and money when boxing in pipes in any domestic or commercial installation. Howarth Timber & Building Supplies stocks the full range.

Traditional site made methods of boxing in pipes are time consuming and costly.

The need to cut sheets of ply or MDF to size, make a support frame, fix them together and then finish with two coats of paint turns a simple job into a marathon.

According to an impartial study by EC Harris, Pendock boxing can be fitted in less than half the time taken for site made alternatives.

Available in a range of profiles and sizes, Pendock boxing comes in 2.5 metre or 3.0 metre lengths from Howarth Timber & Building Supplies.

**Save time and money with
Howarth Timber & Building
Supplies and Pendock.**

EC HARRIS STUDY - UPDATE

The EC Harris study into the fitting and installation times of Pendock boxing found that it is around 60% quicker to fit than site made pipe boxing, which significantly reduces time and labour costs.

The study measured the time taken to construct 75mm x 150mm boxing from both ply and MDF, against Pendock MX 75x150 pre-formed casing. When comparing Pendock casing against MDF, the labour costs alone showed Pendock to be 61% cheaper. The same comparison against ply resulted in savings of over 63%.
