

arbordor pre-finished panel door range

The arbordor pre-finished panel door range offers traditional elegance in real wood veneers. Most doors are available as a fire door option and are available in a wide choice of panel and glazing options. The doors come in Oak as standard.

Doors are constructed with a solid core and have stile and rail effect lay up made with traditional, fully raised and fielded panels. All doors are supplied fully finished with a lacquer coating.

Part E Building Regulations compliancy. All arbordor pre-finished panel fire doors, excluding the Louis and Riviera Six Light doors on page 21, fully comply with the latest Part E Building Regulations relating to sound reduction requirements for flats, apartment entrances and other relevant public areas when used with an appropriate acoustic intumescent strip and automatic drop seal fitted to the bottom of the door. Further details on request.

Part M Building Regulations compliancy. Building Regulations Part M requires wider doors and thresholds with reduced heights for disabled access. The arbordor pre-finished flush and panel door ranges offer various size doors - 926 x 2040, 864 x 1981, 914 x 1981 - to meet these requirements. Please see the arbordor Internal Doors Price Guide for further information on the sizes available.

The arbordor pre-finished panel door range has a wide and comprehensive selection of made to order sizes available.

For the complete range of available door sizes including 35mm thick non-fire doors and Part M mobility doors please see the Howarth Timber & Building Supplies arbordor Internal Doors Price Guide. made to order doors are usually ready within 6-8 weeks from confirmation of official order.
