

A comprehensive range of side and top hung sliding sash windows meeting the most exacting specifications

PLANT-ON BARS

All factory-glazed frames with glazing bars are priced using the tape bar system.

The clip-on bar system is available at a reduced cost. In order to reduce the risk of movement, all external bars are made from straight grain, quarter cut hemlock. On translucent finishes, this may result in minor colour variation.

LOW-E GLAZING AND DOCUMENT L

All prices quoted for glazed windows incorporate 24mm low-E glazing as a minimum.

For full details on all other glazing options please contact the Sales Office. Tel: 01469 535302.

NIGHT VENTS

Windows up to 635 wide have no ventilators fitted. From 635 wide to 1084 will have 4000 mm² and 1085 and over will have 8000 mm² ventilation.
